SUMMARY

B.Tech Computer Science student (AI & Data Science) with a strong foundation in Python, SQL, and statistical data analysis. Skilled in data wrangling, exploratory data analysis (EDA), and visualizing complex datasets to uncover actionable insights. Proven ability to analyze financial time-series data and risk patterns to support data-driven decision-making.

EDUCATION

- D.A.V. Public School** 2023
12th, Central Board of Secondary Education Percentage: 84.6%
- Graphic Era Hill University** 2023-present
B.tech in Computer Science and Engineering CGPA: 7.3

PROJECTS

Stock Market Time-Series & Trend Analytics (SQL & Python)

- Built a SQL-driven analytics pipeline to analyze multi-year stock market trends and news sentiment data.
- Designed and normalized relational databases for historical price and sentiment datasets.
- Utilized SQL Window Functions, CTEs, and JOINS to calculate financial metrics and identify market trends.
- Developed interactive Power BI/Tableau dashboards to visualize financial indicators and sentiment correlations.
- Tools: SQL (Oracle SQL), Python (Pandas), Power BI.

Credit & Debit Card Fraud Risk & Transaction Analytics

- Built a SQL-driven analytics pipeline to analyze transaction data and detect fraudulent patterns.
- Designed and normalized relational databases for transaction and risk-related datasets.
- Utilized SQL Window Functions, CTEs, and JOINS to identify anomalies and high-risk transactions.
- Developed interactive Power BI/Tableau dashboards to visualize fraud trends and risk metrics.
- Tools: SQL (Oracle SQL/PostgreSQL), Python (Pandas), Power BI/Tableau.

TECHNICAL SKILLS AND INTERESTS

- Languages:** Python, SQL, C, C++, Java
- Data Analysis & Visualization:** Pandas, NumPy, Exploratory Data Analysis (EDA), Power BI / Tableau (or Excel)
- Databases & Querying:** Oracle SQL, MongoDB, Relational Database Management (DBMS), Data Aggregation & Joins
- Developer Tools & Libraries:** Git, GitHub, Visual Studio Code, Anaconda, Scikit-learn, Jupyter Notebooks
- Coursework:** Data Structures & Algorithms, Operating Systems, Database Management Systems, Statistics & Probability

ACHIEVEMENTS

- Sports:** Apart from coding and engineering, played and performed in the under-19 national cricket for Uttarakhand.
